

Menu of Interior Design Services 2010

We deliver architecture and interior design services in an accessible, easy to use format. We help you to select services that suit your project, budget and level of experience. You may choose to use us across every aspect of your project or simply for ideas and advice.

We always provide you with costs for each service before starting work, so that you maintain control over your design costs.

Please review our Menu of Interior Design Services to see how we can help you.

Menu of Interior Design Services

We place a great deal of emphasis on the interior of your project because ultimately this is the way that you experience the building for most of the time. Our buildings are always designed with the interior in mind. We manipulate spaces, volumes, circulation, natural lighting and ventilation to create the best possible living environment and provide that little bit of something extra, commonly known as the wow factor.

■ Outline Interior Design

If you commission Architecture Scheme Design services from us we include an Outline Interior Design scheme. Alternatively we can provide this service on a stand-alone basis for interior renovation projects. Outline Interior Design includes:

- Suggested layout plans for kitchens and bathrooms.
- Suggested layout plans for built in storage or furniture.
- Identification of key interior design features such as fireplaces, staircases, roof lights etc.
- Proposed key finishes for flooring and walls.

This service is included within our Architecture Scheme Design service. For interior renovation projects we provide this service on a fixed fee basis for an agreed scope of works or at an agreed hourly rate.

■ Detail Interior Design

Should you wish to design a key room in detail or if you want to commission bespoke designed installations or furniture we are happy to provide additional design services. We can provide designs for manufacture by a contractor or work with specialists to achieve your exact requirements. We are able to help with the following typical projects and provide services on a fixed fee basis for an agreed scope of works or at an agreed hourly rate.:

- Bathrooms, shower rooms and wet rooms.
- Kitchens and utility rooms.
- Built in furniture for bedrooms, dressing rooms, home offices, play rooms, living rooms, dining rooms, conservatories.
- Feature walls and floors.
- Fireplaces.
- Staircases.
- Lighting designs.
- Home automation designs.

■ Interior Furnishing and Finishes

Our in-house interior designers can design and schedule an Interior Furnishing and Finishes scheme for you. We use sketches, images, mood boards and samples to agree a fully bespoke interior design with you. We will then issue the relevant information to contractors and suppliers in order that the designs are fully coordinated and implemented on site. We have a large interior design database and can obtain good trade discounts on your behalf. Unlike many interior designers we don't work on a commission basis. We prefer to work completely transparently and declare our fees before starting work. We can provide this service on a fixed fee basis for an agreed scope of works or at an agreed hourly rate.

■ On site

The true success of great architecture and interior design projects lies in attention to detail and excellent coordination and finishing on site. We can provide site inspection services to ensure that your designs are manufactured, delivered, installed and operational as intended. We provide this service at an agreed hourly rate.

■ Meetings

If you do not require a comprehensive Interior Design service we are always happy to provide advice on an as need basis. You may wish us to accompany you to visit a kitchen designer or flooring showroom. We can meet you to review your finishes ideas or discuss the latest trends in decorating. We are always happy to accompany our clients on research trips or plan expeditions to purchase those one off special pieces that make the difference to your interior. Tell us your requirements and we will do what we can to help. We provide this service at an agreed hourly rate.
